Roasted Apple and Butternut Squash Soup

Total Time: 40-50 minutes Calories per Serving: 570

Serves: 2 people

Apple cider is the juice of fresh pressed apples. Unlike regular apple juice, it hasn't been filtered. Its potent sweet-tartness is used here to season a rich, hearty apple and butternut squash soup that's made extra flavorful by an herbaceous mix of rosemary, sage, and thyme.

1. Prepare Ingredients

Preheat oven to 450°F. Finely chop **rosemary** and **sage** leaves, discarding stems. Strip **thyme** leaves, discarding stems. Mince **garlic**. Peel **onion** and mince. Peel **apples** and cut into ½-inch dice, discarding cores. Halve **squash cubes**. Wrap **baguette** in foil.

2. Roast Apples and Squash

On a baking sheet, toss **apples** and **squash** with **rosemary**, **sage**, **thyme**, **1½ tablespoons olive oil**, **½ teaspoon kosher salt**, and **pepper**. Arrange in a single layer, transfer to oven, and roast, flipping halfway through, until tender, about 20 minutes total. Place **baguette** in oven to warm for about 10 minutes. Remove and set aside to cool for about 2 minutes.

3. Toast Croutons

While apples and squash roast, cut **warmed baguette** into 1-inch cubes. Heat **1 tablespoon olive oil** in a medium pan over medium heat. When oil is shimmering, add **baguette** in a single layer and toast until golden, about 3 minutes per side. Remove from pan and immediately season with **salt** and **pepper**.

4. Simmer Soup

Heat **butter** and **1 teaspoon olive oil** in a large pot over medium heat. When butter is foamy, add **onion** and cook until soft and translucent, about 3 minutes. Add **garlic** and cook until fragrant, about 1 minute. Add **roasted apples**, **squash**, and **2 cups water**. Increase heat to high and bring to a boil, then reduce heat to low and simmer until flavors are melded, about 5 minutes. Remove pot from heat.

5. Blend Soup

Transfer **soup** to a blender and blend, working in batches if necessary, until smooth (see Recipe Tip). Return to pot, off heat. Stir in **apple cider**. Taste and add **salt** and **pepper** as needed. Alternatively, using a large spoon, mash ingredients against side of pot until mostly smooth, then stir in apple cider and season.

6. Serve Soup

Garnish your **soup** with **croutons** and enjoy while it's hot.
