Homemade Candy Bars

with Caramel, Chocolate, and Salted Peanuts

Get excited, you're making homemade candy bars tonight! A simple crust of butter, flour, and sugar is topped with peanut-laced caramel then enrobed in silky chocolate. For that perfect salty-sweet finish, there's a hit of Maldon salt at the end. Get ready to ditch the candy aisle indefinitely.

30-40 minutes 4 servings 380 calories per serving

Plated.

Ingredients

¼ cup unsalted butter
6 caramel squares
2 tablespoons roasted salted peanuts
½ cup flour
¼ cup powdered sugar
2 tablespoons heavy cream
2 ounces semisweet chocolate chips
1 packet coconut oil
¼ teaspoon Maldon sea salt
1 parchment paper

You'll Need

kosher salt
baking sheet
6" small pot

Recipe Tips

Be sure to read through the entire recipe before you begin cooking.

No microwave? Heat the butter in a small pot over low heat, then transfer to a heatsafe bowl and stir in flour, sugar, and salt to make dough. Wipe pot clean before using in Step 3.

For Step 4, if you don't have a microwave, heat the chocolate and coconut oil in a double boiler: To create the double boiler, set a heatproof bowl over a pot of boiling water (you can reuse the pot from melting the butter), making sure the bowl fits without touching the water. This gentle melting technique prevents the chocolate from sticking and burning.

1. Prepare Ingredients

Preheat oven to 375°F. Place **butter** in a medium heatsafe bowl and microwave in 30-second intervals until completely melted (see Recipe Tip). Unwrap **caramel squares**. Roughly chop **peanuts** or leave in bag and gently crush with the bottom of a heavy pan. Line a baking sheet with parchment paper.

2. Bake Crust

Add **flour**, **powdered sugar**, and **¼ teaspoon salt** to bowl with melted butter and stir until dough comes together and all ingredients are fully incorporated. Turn **dough** out onto prepared baking sheet and form into a rectangular shape, patting down to about ½-inch thick. Bake until golden brown around the edges, about 10 minutes. Set aside to cool slightly, 10 minutes more.

3. Make Caramel

While crust bakes, in a small pot over medium heat, combine **heavy cream** and **caramel squares**. Cook, stirring occasionally, until caramel squares have melted and sauce is smooth, about 5 minutes. Remove pot from heat and stir in **peanuts**. Set aside until Step 5.

4. Melt Chocolate

Place **chocolate** and **half of coconut oil** in a medium heatsafe bowl and microwave in 30-second intervals until melted (see Recipe Tip). Discard remaining coconut oil or save for another recipe (coconut oil can be used in place of olive or canola oil, and is great for sautéing!).

5. Top Crust

Pour **peanut caramel mixture** over cooled crust, spreading evenly and leaving a ½-inch border. Pour over **melted chocolate mixture** and spread evenly over caramel. Sprinkle over **Maldon salt** and freeze (still on baking sheet) until candy has hardened slightly, 15 minutes or up to 1 hour.

6. Plate Candy Bars

Remove **homemade candy bars** from freezer and cut into 12 bars. Enjoy with fellow chocoholics!
