Steak "grain" refers to the direction of the meat's muscle fibers. Cutting against the grain means slicing in the opposite direction, which results in tender pieces of meat.

USDA recommends cooking beef to 145°F.

1. Prepare Ingredients

Rinse all produce. Thinly slice **radishes**. Finely chop **parsley** leaves, discarding stems. Halve **pea shoots**. Pat **steak** dry with paper towel.

2. Marinate Steak

In a large shallow bowl or resealable plastic bag, combine **balsamic vinegar**, **spice mix**, and **2 tablespoons olive oil**. Add **steak** and turn to coat. Set aside to marinate at room temperature for at least 10 minutes.

3. Make Chimichurri Sauce

While steak marinates, in a medium bowl, whisk together **red wine vinegar**, as much **crushed red pepper** as desired, **parsley**, and **3 tablespoons olive oil** until fully combined. Season with **⅛ teaspoon kosher salt** and **black pepper** as desired. Set aside.

4. Sear Steak

Heat **½ tablespoon olive oil** in a large pan over medium-high heat. Remove **steak** from marinade, allowing excess to drip off. Season all over with **½ teaspoon kosher salt** and **black pepper** as desired. When oil is shimmering, add steak and sear until browned on outside and medium rare, about 2 minutes per side. Remove from pan and set aside to rest for about 5 minutes.

5. Char Tortillas

While steak rests, wipe pan from steak clean and place over medium-high heat. Add **tortillas** and cook, working in batches if necessary, until lightly charred, 1-2 minutes per side.

6. Plate Tacos

Cut **steak** against the grain into ¼-inch slices and add to **tortillas** (see Recipe Tip). Top with **radishes** and **pea shoots**. Sprinkle over **goat cheese** and add a drizzle of **chimichurri sauce**. Happy taco night!
