Not-so-secret secret: Cold butter equals a light, flaky biscuit topping for your cobbler. Try to work quickly when you're making the topping so the butter doesn't have time to warm up.

1. Prepare Ingredients

Preheat oven to 425°F. Cut **butter** into small dice and place in refrigerator to chill until ready to use (see Recipe Tip). Rinse **apples** and cut into ¼-inch dice, discarding core.

2. Make Filling

Add **cherries**, **1 tablespoon flour**, **2 tablespoons sugar**, and **apples** to tin, reshaping if bent. Toss to coat.

3. Make Topping

In a medium bowl, stir together **baking powder**, **remaining flour**, **remaining sugar**, and a **pinch salt**. Add **chilled butter** and using your fingertips, work into dough until only a few pea-sized lumps remain. Add **1 tablespoon warm water** and stir to combine.

4. Assemble and Bake Cobbler

Pull off 1-inch pieces of **topping**, flatten slightly, and drop evenly over filling in tin. Place on a baking sheet, transfer to oven, and bake until fruit is bubbling and topping is golden, about 25 minutes.

5. Plate Cobbler

Remove **cobbler** from oven and set aside to cool for a few minutes before digging in.
