Grilled Cheese with Creamy Tomato Soup

Total Time: 25-35 minutes Calories per Serving: 690

Serves: 2 people

The combination of tomato soup and grilled cheese is a timeless one. Here, the soup gets a kick from fire-roasted tomatoes while the grilled cheese is made with a melty mix of Gruyère and white Cheddar.

1. Simmer Soup

In a medium pot over high heat, combine **vegetable broth**, **fire-roasted tomatoes and their juices**, and **1 cup water**. Bring to a boil, then reduce heat to medium high and simmer until slightly thickened, about 17 minutes.

2. Assemble Sandwiches

While soup simmers, spread **mayonnaise** on 1 side of each bread slice (see Recipe Tip). Place **bread** mayo-side down on a clean dry surface. Sprinkle **cheese mix** over 2 bread slices, dividing evenly. Finish with **remaining bread**, mayo-side up.

3. Finish Soup

After about 17 minutes of simmering, add **heavy cream**, **pecorino**, and as much **crushed red pepper** as desired to pot with soup over medium-high heat and cook, stirring, until warmed through, 1-2 minutes. Taste and add **salt** and **pepper** as needed.

4. Cook Sandwiches

Place a large pan over medium heat and add **sandwiches**. Place a medium heavy pan or another heavy object on top. Cook until bread is golden and cheese is melted, 2-3 minutes per side.

5. Season Soup

While sandwiches cook, carefully transfer **soup** to a blender, if desired, and blend until smooth. Return to pot. Rinse **basil** and tear leaves into bite-size pieces, discarding stems. Add to pot with soup and stir to combine. Taste add more **salt** and **pepper** as needed.

6. Plate Grilled Cheeses and Soup

Halve **grilled cheeses** on a diagonal and enjoy with **tomato soup** alongside. Try dipping!

RECIPE TIPS

Be sure to read through the entire recipe before you begin cooking. Trust us—you'll be glad you did!

Mayo doesn't burn the way oil or butter does. Spreading it on the outside of your bread will help your sandwich crisp to perfection.

Use caution when adding the hot liquid to the glass vase of the blender. Be sure not to overfill the machine when you're blending your soup. Work in batches if necessary.
