Pecan Pie Bars

Total Time: 20-30 minutes Calories per Serving: 530

Serves: 2 people

Pecan pie made portable is the stuff of dreams. All the sweet and crunchy goodness of the traditional autumn dessert is baked into a bar that fits into your hands. A win-win situation: There's more pie per bite without the expectation to share.

1. Prepare Ingredients

Preheat oven to 400°F. Cut **butter** into ¼-inch dice and place in refrigerator until ready to use. Roughly chop **pecans**. In a small bowl, beat **1 egg**.

2. Make Crusts

In a medium bowl, combine **flour**, **granulated sugar**, **½ of chilled butter**, and a **pinch salt**. Using your fingers, mix, breaking up butter until mixture resembles wet sand. Add **½ of beaten egg** and stir until fully combined. Divide evenly between tins, reshaping if bent. Add remaining egg to your omelet tomorrow.

3. Bake Crusts

Press **crusts** into bottom of tins in an even layer. Using the tines of a fork, poke holes in crusts to allow air to escape. Place on a baking sheet, transfer to oven, and bake until lightly golden, about 8 minutes.

4. Make Filling

While crusts bake, whisk together **brown sugar**, **honey**, and **remaining butter** in a small pot over medium-high heat. Bring to a boil and cook, whisking continuously, until smooth, about 1 minute. Remove pot from heat. Add **heavy cream** and a **pinch salt** and whisk until combined. Stir in **pecans**.

5. Bake Pecan Pie Bars

Carefully pour **filling** over **baked crusts**, dividing evenly. Using the back of a spoon, press down to flatten. Transfer to oven and bake until bubbling and brown, about 5 minutes. Remove and patiently set aside to cool completely (see Recipe Tip).

6. Plate Pecan Pie Bars

Remove **pecan pie bars** from tins and enjoy with wild abandon.
