Recipe Tips

Be sure to read through the entire recipe before you begin cooking. Trust us—you'll be glad you did!

A fun task for an eager kitchen helper: whipping the cream! This step requires some elbow grease if whisking by hand, so whoever completes the task has dibs on licking the bowl!

No microwave? No problem! To melt chocolate on the stovetop, create a double boiler. Bring 2 inches water to a boil in an 8" medium pot over high heat. Place bowl with chocolate over pot and stir until chocolate is melted and smooth, 2-4 minutes.

If you have a stand or hand mixer, feel free to use it instead of the whisk.
